PROFESSIONAL SUMMARY

Results-driven Data Analyst with experience delivering BI solutions using Python, Power BI, SQL, and Tableau. Proven ability to automate ETL pipelines, build KPI dashboards, and translate datasets into revenue insights. Seeking a full-time Data Analyst role at an IT services or consulting firm.

PROFESSIONAL EXPERIENCE

Junior Data Analyst | Widesoftech Pvt Ltd, Nagpur Dec 2025 – Present

- Dashboard Development:** Designed 3+ Power BI dashboards tracking revenue KPIs, reducing weekly reporting effort by 40% and enabling real-time stakeholder decisions.
- Revenue Analytics:** Performed data wrangling and statistical analysis (Python, Pandas, NumPy) for the Revenue DNA project, identifying 5 core growth drivers informing quarterly strategy.
- ETL Automation:** Automated 4 recurring ETL workflows via Python, cutting data preparation time by 3 hrs/week and improving team productivity by 25%.

KEY PROJECTS

Revenue DNA — Business Growth Analysis | Widesoftech Pvt Ltd Dec 2025 – Present

- Built end-to-end data pipelines (Python, Pandas) on multi-source datasets; applied statistical modelling to surface revenue trends, reducing time-to-insight by 50%.

Myntra Sales Dashboard May 2026

- Data Analysis & Visualisation:** Extracted meaningful insights from Myntra sales data and created an interactive dashboard using Myntra theme palette; performed data cleaning, data wrangling, and KPI reporting to surface top-performing categories and sales trends.
